No brand records found!

Edmunds.com True Market Value

Find out what a used car is worth with our market value tool, which allows you to easily compare the dealership trade-in, private party and dealer retail price estimates. The TMV® price* shown is based on the vehicle's style. Options and color adjustments are not taken into consideration.

No results were found for this vehicle

* The Edmunds.com TMV® (Edmunds.com True Market Value®) price is Edmunds.com's determination of the current average base "dealer retail", "private party", and trade-in" price in the area indicated by the Zip Code provided, unadjusted for color or any options. (If no Zip Code was provided, this price is the national price.)

Edmunds.com Maintenance Schedule

The following section list the estimated costs for the next maintenance service for this 1995 Acura Integra. This total estimated cost includes the preventive maintenance items recommended by Acura. The facility that services your vehicle may perform different, greater, or fewer procedures that can affect the cost you incur. For example, engine oil change and filter replacement are commonly performed by dealer and independent service facilities at special prices. These "special price" services do not typically include all the additional procedures recommended by Acura at each service interval.

Legal disclaimer

Consumer Access Product DisclaimerThe National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real - time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

Before making a decision to purchase a vehicle, consumers may wish to obtain an independent vehicle inspection, a NMVTIS Vehicle History Report, and consult other available vehicle information resources.

The information in NMVTIS INCLUDES:

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

VINCheckPro Consumer Access Disclaimer

VINCheckPro Pro compiles vehicle history reports from various third party data suppliers and other data sources, including, but not limited to, NMVTIS or its sources. The Consumer Access Product Disclaimer above applies solely to NMVTIS data and data sources. This data is provided to you by VINCheckPro on a "read-only" basis; VINCheckPro does not supply data from its own databases and data sources, and is not responsible for the contents of any part of the NMVTIS Vehicle History Report. VINCheckPro cannot guarantee the accuracy of the information contained in NMVTIS Vehicle History Reports.
